THE ceremony of immuring Boss Tweed in the Penitentiary on Blackwell's Island, as narrated in the New York Times, had some in-

teresting features: "In answer to the usual questions, the prisoner gave his name as William M. Tweed, his age as fifty, his occupation a statesman, and affirmed that he had no religion. He was then asked what was the religion of his relatives, to which he replied, "The Protest-ant." This criminal was accordingly put down as a "Protestant." He was then weighed, and it was ascertained that his weight was 263 pounds. Afterward he was taken to the bath, as are all other criminals, and after a thorough cleansing, and the regulation, shaving of the head, he was arrayed in the usual penitentiary uni-

THE CINCINNATI GAZZZZE A Paper of Established Reputation -ADAPTED TO THE-

Fireside, Farmer, Mechanic, Manufacturer, Merchant, Banker, Professional Man.

The coming year promises to be an eventful one is politica. Leading questions are to be met and decided, and above all it is to be determined whether the Ropublican party shall be purged of all its objectionable features and retained in power, or whether the Government shall be suffered to fail into the bands of the old Democratic organization. The new party movement which brought out Horace Greeley for the Presidency Listor, and showed listelf feeble in Ohio and New York in 1873, has failed utterly. It has assisted in restoring to life the Democratic party, but it is now entirely out of the field of politics, and there are but two organizations before the country—Republican and Democratic. In view of this fact the Guzette holds:

1. That the restoration of the Democratic party to power would be a national calamity, it is in the same now that it wis in 1830, when the great wheelilon was erganized; the same as it was from 1830 to 1800, when he had been to list of the war lave not ocen accepted by it in good faith. If owes a debt to list Southern friends, which if paid would entail a heavy burdlen upon the nation. It would pay for the emancipated slaves, and asseme part of the expenses incurred by the south in its efforts to destroy the Gorernment. It is essentially a corrupt party. Wherever it has power it squanders and steals. The Tammany ring is an illustration of Democratic in the spect and fourishing cities.

2. The Gazette holds that in so far as the Republican party has erred, it should be reforming as it is great an issions. It is the party of the people. It is the party of treedom, if is progressive. It is a mark to the past of the organization of the correct by thrifty and prosperous communities in which of publical party on the people. It is the party of recolon, if is progressive. It is a mark the party of the people. It is the party of treedom, if is progressive. It is a mark the party of the people. It is the party of the people. It is the party of three of the progressive in the party of the people

2. The Gazethe holds that in so fir as at the life of the position is popularly understood, and so largetly appreciated that its subscribers and resolution in the position of the position of

The opposition of the controlled the Cincinnati convention in 1812, and now makes the loudest professions of honesty, is made up mainly of men who brought disgrace upon the Republican Jary, and having lost standing place in some party that will recognize them as leaders.

6. The fitaneral questions is one of paramount importance. Extremes are to be avoided. Specic payments are in the future. Contraction at present, would be disastrous. Expansion would also be distinctive. The "let alone" policy is the best one. The national bank act needs to be amended in order that those institutions may be operated in the interests of and the interests of the interest of the intere

than in the interests of g'gamile speculators and stock and more initic gamilers. A return to specie plyments; to be kept in view, but this can not be brought about at if the country is ready for it. The development of our resources is the only sure road to a specie currency. If attention as all the wisely directived to this point, and we still avoid forced contrationed one hand and reckless expansion to the other, specie payments will follow in the time.

The general character of the Cincinnati Gazetle is so well known that it needs no explanation. While it is a Republican paper, it is independent in that it farfessly exposes, abuses, whether inside or quiside of the party, with which it acts. It recognizes no political friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship for men who betray their trusts, nor will it senk to cover up or apolitical friendship mers, thousands of whoth exchange their views through its columns. Ready Relief and Perfect Purgative Pfils, in written testimonials from all parts of the world, surpass in wonder the most extrawagant miracles of enchantment. Physicians and medical men in all countries pronounce these wonderful remedies a mystery, that neither their science of analysis or chemical skill can explain. True, these medicines effect the most marvelous cures, and restore the dying to life, and relieve the most wretched pain-suffering victim of his tortures, in from one to twenty minutes, and although they know some of the ingredients of their composition, and Dr. Radway has published their formula (withholding only two newly discovered roots), still both French, German, English and American chemists and pharmaceutists utterly fail with the same ingredients as prepared by them. The great success, which these wonderful remedies are constantly achieving, lies in the great secret of combining the ingredients together, after exercising due care in selecting the pure and genuine roots.

Such wonders of Modern Chemistry as the SARSAPARILLIAN RESOLVENT, READY RELIEF & RADWAY'S PILLS, are without parallel in the History of Medicine, for there are some infirmities and diseases that are con-sidered as incurable, and sure death. Yet the most astonding curves have been additional

and PILLS.

Dr. Radway & Co. have never claimed one-hundreth part of the curative virtues for their remedies as is ascribed to them by the people who have used them; for bear in mind, only such diseases and complaints as Dr. Radway, after successful treatment with their remedies knew they would cure, were enumerated in their curative list, so that many of the extraordinary cases that have been reported awakened as much astonishment in the discovery of their remedial agents as in those who had been researed from death, and made whole and sound.
